

68, PALACE GARDENS TERRACE,
KENSINGTON. W.

Oct-14. 1893.

Dear Mr Murray

Have you, as you
kindly promised, glanced
through my rough MS?

If so would you be good
enough to return it by
beaver, with any notes
or remarks you have to
make upon it. We are
just going to press and,
by doctor's orders, I am

to delegate the correction
of proofs &c. to my secre-
tary, whilst I undergo
a six weeks course of
massage. I should
however like to hear
what you have to say
first, so that I may
make any alterations
of a substantial nature
before I surrender my
MS. finally to the
printer. I believe I am
to have two of Miss
Siddals' (Mrs S. S. R.'s)
studies for reproduction

from two friends and, if you
would let me have a short note
on the subject and would allow
me to insert it as from you, it
would add materially to the inter-
est of the little book. And further
if you would put at my disposal
other studies of hers which you
may hold it would of course
be inestimably valuable.

Please forgive me for worrying
you in the matter but you will
see that the exigencies of the case
make it imperative.

If your remarks are not ready
and you would name an early day
next week I would send down
again for them.

Yours very truly
Maynard.
P.S. If you think a talk
would be useful & could
give us the pleasure
of your company at
lunch tomorrow (Sunday)
at 1.15 it would give be very pleasant.
